🔗 LeetCode

EDUCATION

•BE in Computer Science and Design Engineering

Jun 2022-2025 / Nashik, India

K. K. Wagh Institute Of Engineering Education And Research

CGPA: 7.71/10.0

•Diploma in Mechanical Engineering

Jun 2019 - Jun 2022 / Amravati, India

Government Polytechnic Amravati

Percentage: 90%

•Secondary School Certificate

Jeevan Vikas Vidyalaya Dudhajgaon BK / Malkapur, Buldhana

Percentage: 86.20%

PROFESSIONAL EXPERIENCE

•Full Stack Developer, Intern

Nxtqube, Nashik (Onsite)

March 2025 – Present

- Developed responsive UI components for **Argos – Drone Automation SaaS** by translating Figma designs into React.js using Material UI and integrated REST APIs with axios for real-time data management.
- Enhanced **Zypher – AI-powered Inventory Management System** as a full-stack developer by implementing backend business logic, developing new features based on client requirements, and improving the product experience.
- Technologies: React.js, Sequelize, Node.js, MySQL, Linux, Socket.io, Material UI, Chart.js, REST APIs, Git.

PROJECTS

•Video Transcoding Service

Microservices Architecture, DevOps

- Built a scalable video transcoding pipeline with **separate microservices** for upload, transcoding, media retrieval, and frontend delivery.
- Integrated AWS S3 for storage, **Dockerized** services, and deployed on AWS EC2.
- Added a Redis queue to streamline services and implemented **Redis-based rate limiting** for controlled API access.
- Tech Stack: TypeScript, Node.js, PostgreSQL, Prisma, Express.js, FFmpeg, AWS (EC2, S3), Docker, Redis, Nginx

•Real-time Whiteboard Collaboration Tool

Full Stack + WebRTC + WebSockets

- Developed a collaborative whiteboard with **real-time peer-to-peer board synchronization** across users using WebRTC.
- Implemented low-latency communication via **WebSocket** and peer-to-peer data handling using WebRTC.
- Tech Stack: React.js, Node.js, Express.js, Socket.io, WebRTC, Tailwind CSS, AWS EC2, Nginx, Docker.

•Leave Management System

Full Stack + Role-Based Access + Real-time Updates

- Built a leave request and approval workflow with **role-based authentication** and approve/reject email notifications using Nodemailer.
- Integrated PostgreSQL with Prisma ORM and JWT-based authentication.
- Implemented **real-time leave status updates** across the application using Redis Pub/Sub.
- Tech Stack: React.js, TypeScript, Node.js, Express.js, PostgreSQL, Prisma, AWS EC2, Redis (Pub/Sub), Docker, Nginx, Nodemailer.

SKILLS

- **Programming Languages**: C++, Golang, JavaScript, TypeScript
- **Full-Stack Development**: HTML5, CSS3, React.js, Tailwind CSS, Material UI, Context API, Recoil, Redux, Chart.js, Node.js, Express.js, Auth, Prisma, Socket.io, WebSocket, WebRTC, Basic Kafka, AWS-SDK, IORedis, Docker-compose
- **Databases & Cloud/DevOps**: MySQL, PostgreSQL, MongoDB, Redis, AWS (EC2, S3), Docker, Nginx, PM2, Basic GitHub Actions (CI/CD)
- **Tools & Environments**: Git, GitHub, Postman, VS Code, Neovim/Vim, Figma, Linux CLI
- **Computer Science Fundamentals**: Data Structures & Algorithms, DBMS, OOP, OS, CN
- **Soft Skills**: Problem Solving, Quick Learning, Team Collaboration

ACHIEVEMENTS

- 1st Rank in DBMS Competition at Nashik organized by CSI.
- Solved 180+ questions on LeetCode.
